5S FOCUS

Workplace Organisation for Safety and Productivity

What is 5S?

A systematic approach to workplace organisation that improves both safety and productivity.

The 5S are **Sort, Set, Shine, Standardise** and **Sustain**. They are always applied in the same sequence.

5S CD Contents

The CD contains a full training course that can be delivered by your own people when you want. It enables workgroups to be trained in 5S prior to roll out in their areas. It doesn't expire or contain limits to its use.

There is a comprehensive 5S Presentation, printable Instructor Guide, printable Participant Handouts, printable 5S Game and a 5S audit that you can customise to suit your operation.

The key to any successful program is in training and communication.

Benefits

Rapidly improves productivity by reducing the time wasted through searching for tools, information and equipment.

Develops a culture of continuous improvement and raises safety awareness in all staff who have been trained.

Adds real benefits to your bottom line.

"The 5S CD from Zentec allowed us to improve our warehouse operations that not only impressed ourselves but also our customers too." NYK Logistics Operations Director
